On August 30, 2013, the Commission issued an Order inviting all participants in this proceeding to provide their views as to how the agency should continue with the licensing process. The Four Nevada Counties are pleased to provide their views as set forth below.

We suggest the Commission direct the following:

1. That the suspension of the Yucca Mountain licensing proceeding be immediately lifted;

2. That the Atomic Safety and Licensing Board ("ASLB") designate CAB 04 as the assigned panel to conduct the proceeding;

3. That the NRC issue an order directing the immediate release of the un-redacted NRC Staff Safety Evaluation Reports ("SERs"), and that the staff immediately proceed to complete and publish the unfinished SER volumes;
4. That the NRC designate the completion and publication of the SERs as the first priority for the expenditures of funds

5. That the Licensing Support Network (“LSN”) not be reinstituted;

6. That all documents in the proceeding be added to the ADAMS archival system.

7. That a revised NRC budget request be submitted to Congress for sufficient funds to enable the NRC to continue a thorough licensing process as mandated by the Nuclear Waste Policy Act of 1982 as amended.

Respectfully submitted,
